OLDEN SONGS.

Back from the misty realms of Time,
Back from the years agone,
Faintly we catch the ringing rhyme,
And hear the melody and chime
Of olden songs, of strains sublime,
Like carol of birds at dawn.

And ever we hear them soft and low,
Harping their music sweet,
Songs that we loved in the long ago,
Rippling the liquid ebb and flow,
Drifting their cadence to and fro,
Like the fall of fairy feet.

Some faces our hearts will ever hold,
Some smiles we may remember yet,
There were flowing locks like the sunset's gold,
There were parted lips of Cupid's mould,
And the songs they sang can ne'er grow old,
For our hearts can ne'er forget.

The tunes that the voice of girlhood sung,
The chords that we loved full well,
When hopes were buoyant, hearts were young,
When fairy-bells in the flower-cups rung,
And ever fell from a maiden's tongue
The words of the witching spell.

Ah, well-day! 'tis a story past,
Which I may not tell again,
'Twas a happiness too sweet to last;
The heavy clods on her grave are cast,
And her voice is stilled, and above her, fast
Falls the Summer rain?

VALUABLE MINING INVENTION. — The Stockton *Independent* of the 26th gives the following description of a "Concentrator and Separator," recently invented by E. R. Chapin, of Sonora, and says: The model, which he has determined to send on to Washington, in hopes of getting out a patent for his invention, could easily be placed in a person's coat pocket. It is entirely different every way from any separator or concentrator that we have seen used by quartz miners. A shallow pan, called the separator, elevated an inch above the concentrator, first receives the water, sediment, quicksilver and gold escaping from the mill above. The bottom of the separator being deeper than the sides or mouth where the water flows over, the quicksilver and gold naturally settle down, while the light sand and sulphurets flow over with the water into the concentrator, which looks somewhat in shape like the shallow top of a soup tureen. Small holes are perforated in the bottom of this concentrator, through which the sulphurets pass into small pans fastened beneath, while everything else flows over the top into conductors which convey it away. The whole machine is suspended on four stout wires, each fastened at the bottom in a strong framework. Diminutive cog-wheels attached to a cylinder, which is kept in motion by the action of the mill above, sets the machine in motion, and gives both the separator and concentrator the same motion as that of a child's cradle when rocked gently. The invention of Mr. Chapin works a great change for the better in quartz mining.

THE UNION PACIFIC RAILROAD.—The *Alta* says, the Directors have at last decided that the main track of the Union Pacific Railroad shall not run through Denver, but straight westward from the forks of the Platte up Lodge Pole Creek, to the foot of the Black Hills, and thence at a right angle northward to Fort Laramie, to which place it is expected to be finished by the end of the present year. There are now three hundred and five miles of the road finished; the section from the forks of the Platte to Laramie will add 300 more, so that the cars a year hence will be running over six hundred and five miles of road on the eastern ends, and if the Central Pacific Company push their labors as energetically next summer and autumn as they did the last, we shall probably have the cars running to Austin, which will leave less than half the distance between Sacramento and Omaha to be traveled by stages, and give us the Chicago and St. Louis mails in nine or ten days.

BORAX LAKE.—Dr. Macgowan, in a letter to the New York *Post*, gives a description of Borax Lake and Sulphur Springs, in Napa Valley, and the process of collecting the borax. Of the lake he says: Borax Lake is about one hundred miles north of San Francisco. Properly speaking, it is only a pond, being only one mile long and a half mile wide. It is situated in a peninsula which juts in Clear Lake, from which it is separated by a mountain. It is, in brief, the crater of an extinct volcano, or at least presents that appearance. That my reader may duly appreciate the rarity of the curiosity before him, I will say that probably no white man ever saw its like—there being no other of the same kind save in Thibet. Before the discovery of Borax Lake in California, there were but two sources of supply of borax to meet the demand of the world—that of Thibet, and that of a firm in Liverpool who manufactured the article by a chemical process.

ANTON BERGER died in Sacramento January 30, from the effects of a fall on Tuesday last.

TELEGRAMS TO THE SUN.—The waves of sound go only 377 yards in the second, while the earth itself goes 13½ miles, and light 10,000 times faster than that; while electricity (which again is probably another kind of vibration of the solid atoms of bodies, and certainly not a fluid,) runs along the wire about half as fast again as light. So, if the earth were a cannon ball, shot at the sun from its present distance, with the velocity it now travels with, and the moment of explosion telegraphed to the sun, they would get the telegram there in about five minutes, and see the earth coming in about eight minutes, and would have nearly two months to prepare for the blow, which they would receive about fifteen years before they heard the original explosion. This is merely taking the sun as a target to be shot at without regard to his power of attracting the earth at the final of 390 miles a second.—*Dennison's Astronomy Without Mathematics.*

THE GRIDLEY RELIEF FUND.—On the 23d instant, the Nevada Legislature passed a resolution donating one day's pay of the members, amounting to $304, to the Gridley relief fund. We also take pleasure in stating that we have received a letter from W. W. Gibbons, of Alameda county, stating that the Brooklyn Soldiers' Aid Society have interested themselves in the same direction, and that it is expected that a canvassing committee now soliciting subscriptions in aid of Mr. G. will probably realize a handsome sum. Mr. Gibbons suggests that some person be selected by Mr. Gridley's friends, to whom funds may be sent until sufficient is realized to purchase a homestead for him and his family.—*Stockton Independent.*

INTERNAL REVENUE.—The sum of $177,731,974 71 is the total received into the United States Treasury for internal revenue during the fiscal year up to the 20th instant. As the fiscal year begins in July, this would give about $355,000,000 per annum.

THE SEX SLANDERED.—An exchange says that at a baby convention in Massachusetts, fifteen mothers were present, and, on a vote for the prettiest, each baby got one vote. This is evidently a deliberate slander. It is equivalent to saying that every woman in the convention thought her young one the prettiest. Who would believe such a thing of the dear delightful creatures? We wouldn't.

A "RUM" JUDGMENT.—A man living in Lewisburg, Preble county, Ohio, having died of delirium tremens, his wife brought suit for damages against two men of whom he had been accustomed to buy liquor. The County Court awarded her $500 from one of the men, and $250 from the other.

THE LIGHT OF THE WORLD.

DR. MAGGIEL'S

PILLS AND SALVE!

These Life-giving remedies are now given to the world. For over a quarter of a century of private practice the ingredients in these

LIFE-GIVING PILLS!

Have been used with the greatest success. Their mission is not only to prevent disease, but to cure. They search out the various maladies by which the patient is suffering, and re-invigorate the failing system. To the aged and infirm a few doses of these valuable PILLS will prove to be

A VERY FOUNTAIN OF YOUTH,

For in every case they add new life and vitality, and restore the waning energies to their pristine state. To the young and middle-aged, they will prove most invaluable, as a ready, specific, and startling medicine. Here is a dream realized, that Ponce-de-Leon sought for three hundred years ago, and never found. He looked for a fountain that would restore the old to vigor and make youth ever

AN ETERNAL SPRING!

It was left for this day and hour to realize the dream, and show in one glorious fact, the magic that made it fair.

THESE FAMOUS REMEDIES!

Cannot stay the flight of years, but they can force back and hold aloof, diseases that might triumph over the aged and the young. Let none hesitate then, but seize the favorable opportunity that offers. When taken as prescribed—

FOR BILLIOUS DISORDERS

Nothing can be more productive of cure than these Pills. Their almost magic influence is felt at once; and the usual concomitants of this most distressing disease are removed. These remedies are made from the purest

VEGETABLE COMPOUNDS.

They will not harm the most delicate female, and can be given with good effect in prescribed doses to the youngest babe.

FOR CUTANEOUS DISORDERS

And all eruptions of the skin, the SALVE is most invaluable. It does not heal internally alone, but penetrates with the most searching effects to the very root of the evil.

SEMI-WEKELY ENQUIRER.

SATURDAY, FEBRUARY, 2, 1866.

No MATTER what the great and glaring faults are in the President to the people of the country in his shameful and outrageous apostacy to the principles he pretended to advocate, and the espousal of which, together with his seeming Radicalism at the time placed him as a candidate upon the Union ticket for the second most exalted and honorable office in the gift of a great people, he seems determined that the few who have signified their intentions to follow him in his treasonable designs upon the party which raised him to power shall not go empty-handed, when places of honor and trust are not vacant they are either made by plainly removing those who have always been true to their trusts, or their tenure to the positions formerly conferred upon them when the President *seemed* honest, as to make their continuance in the office held no longer agreeable or pleasant. The telegraph informs us that Cowan, of Pennsylvania, who failed to receive the endorsement of the people of his own State, and who made his fight for an election upon the "my policy" system, has been nominated by the President as minister to the Court of Vienna, in place of Mr. Motley, resigned. It is somewhat singular as to the manner in which this state of things was brought about, if we consider that honorable, high-minded and pure motives are inseparable from those who occupy the chosen places in the land. There was no fault to be found with Mr. Motley as to the manner in which he discharged his duties as a public servant at a foreign court; his indefatigable industry and jealous eye in the interest of the affairs of his country and the rights and privileges of her citizens formed a constant and abiding duty for his energy and perseverance. Nothing that could add to the honor of the flag in that foreign land was for a moment neglected and no act that brought the honor of his country into jeopardy was tolerated, yet he was to be deposed. The President and Mr. Seward shrunk from the responsibility of removing him for they knew the reason for his removal would be strictly inquired into. Mr. Seward was therefore deputed in his official intercourse with Mr. Motley to make his position as unpleasant as possible, which he did so successfully as to prevent an honorable gentleman as sensitive as our Minister to the Court of Vienna, desire a connection with those who had descended so low. It is said that the correspondence between Messrs. Seward and Motley in relation to the resignation of the latter, embraced but two letters. The Secretary of State resorted to a low and contemptible subterfuge by making upon Mr. Motley a personal charge by accusing him of having said that Seward was a "decrepid old man," to which the Minister said he would not stoop to a denial. All this was done in order that one of the President's supporters should be provided with a place the dignity of which the people would be obliged to support. Again: The "my policy" people are becoming wearied of the presence of Mr. Stanton, and Nesmith, of Oregon, who failed to meet the expectation of honest Unionists is spoken of as the successor of the "Giant of the War Department." In every instance where it has been possible, the President has shown a desire to reward renegades and traitors, to the disgrace of the country.

SURPRISE PARTY.—We have received the following account of a pleasant surprise party which came off at the residence of Mr. M. S. Gardner, of this place one evening this week, with a request that we give it a place in our columns, which we very cheerfully do:

On Wednesday evening, Jan. 30th, a very interesting occasion occurred at the residence of Mr. M. S. Gardner, in this place. At an early hour the door-bell began to be unusually exercised and soon a cheerful gathering of friends and neighors, young and old, were clustered around Mr. and Mrs. Gardner, evidently somewhat to their surprise. Conspicuous among the company was Mrs. Gardner's Sunday School class, the oldest class in the School. At the proper moment one of the class arose and remarking to Mrs. Gardner that she must have suspected a motive in this visit, introduced a classmate, who read to her a very feeling and appropriate letter from the class expressive of their deep appreciation and thanks for all her efforts in their behalf, ending by presenting to her a photographic group of the members of the class, beautifully executed by Messrs. Scripture & Coffin of this place. Mrs. Gardner's response was all that could have been desired; every syllable spoke the heartfelt, devoted, sincere, earnest and affectionate Christian, teacher and lady. It is fitting that occasions of this kind should be placed on record; they are among the brightest of the bright occasions that relieve the tedium through the sandy desert of life."

TERRIBLE IF TRUE.—The New York *Herald* published a dispatch received via. New Orleans under date of January 24th, stating that Maximilian's officers had hung the American consul at Mazatland, and that a United States gunboat had bombarded the city for eight hours in consequence. The report is certainly startling, but we cannot credit it as true. Should it, however, prove a fact Maximilian with his squad of frog-eaters had better be starting for some out of the way place before Uncle Sam gets the news, or the consequence will likely prove unpleasant.

THE cars of the Central Pacific Railroad are now running to Cisco.

LETTER FROM AUBURN.

[CORRESPONDENCE OF THE ENQUIRER.]

AUBURN, January 29, 1867.

MR. EDITOR:—Believing that a word or two from our village will not be entirely uninteresting to the readers of the ENQUIRER, I therefore pray your indulgence for a letter from the seat of operations. True, we seldom have anything of an immense or startling nature to communicate. We have no humble individuals "swinging round the circle" in our vicinity, therefore our political items are common-place. From all accounts, the World's Fair is not likely to take place here, nor do I know of anything connected with our village that will give its name a page in history. Yet, once in a while, we have an incident or so take place that may not be wholly out of the line of a country newspaper: say, for instance, the fact that our friend who engineers the ponderous columns of the *Herald* here, has for some weeks carried upon his person a commission as *Deputy* Assessor for Revenue District No. 2, sent him by that embodiment of modern democracy, Bigler, and then the fact that Bigler's occupation's gone, as far as his power to appoint is concerned, and the point becomes visible. Now, this may not be an item worthy a place in a local column, yet it is an incident illustrating to some extent the power and determination of the people to have none of the unreconstructed placed in positions at the hands of the Government they have so unremittingly villified during the years of her struggle and uncertainty.

LOCALLY POLITICAL.

Although the time for the assembling of the County Conventions for this year lies some distance in the future, yet the "filthy pool" is being considerably stirred, creating the usual amount of effluvia consequent upon the aforesaid stirring. Already may be heard numerous applicants clamorous for posish, all pressing their applications with more or less reason as to why they should be the favored ones. At present only about half a dozen applicants for each county, district and township office appear on the surface, each of whom is ready and willing to sacrifice private concerns for the well being of the county. The political elements are as yet varying and uncertain, the cause of which I attribute to the fact that most of the to-be candidates have not settled upon the point as to which position they desire most, or rather, which they are most likely to receive. In connection with the several positions at the disposal of the people next fall, we hear the usual number of names mentioned who are totally unfit for any position requiring the exercise of ordinary business qualifications. An occurrence took place here last week that has completely puzzled all our political-enigma solvers. I allude to the change in the proprietorship and control of the *Stars and Stripes*. Rumor has already manufactured two seemingly plausible stories: the first of them is that the paper already belongs to H. S. Crocker, brother of the Superintendent of the Pacific Railroad, who, it is understood, is to be a candidate for next State Printer, and, being in doubt as to the popularity of the name of Crocker among the people of our county, makes the *Stripes* the medium through which he intends to prepare the minds of the people for his advent, likewise the paper to be an advocate of the railroad interest. The second story runs thus: that a certain ex-officer of this county has further political aspirations, and has made this move in order to bring to bear all possible force for his advancement. Although neither story bears any great degree of credibility, the latter one seems to find many adherents. However, the whole thing may turn out to be all on the square, and not a move on the political chess-board, altogether free from selfish motives.

MURDERERS ARRESTED.

There is now but little doubt in the minds of our citizens as to the arrest of the guilty ones who lately so brutally murdered Wm. McDaniel. Mr. Wm. Osborn, of our town, has been fortunate enough to overhear conversations between two Chinamen, who are now under arrest, sufficient to enable him to find a watch, pin, and other articles, in the room where two Chinamen lodged, all of which have been identified by relatives of the deceased, as being articles that were in the safe at the time of the robbery.

WEATHER.

The Oldest Inhabitant is prepared to make affidavit that never before, in the history of our town, has it witnessed such abominable and miserable weather, or of so long continuance. Wednesday, we were treated to a jolly snow storm; Thursday, ditto; since when rain has been constantly pouring down, and no indication of a cessation, consequently our streets and roads are in a delightful condition.

Yours, etc., SKOOTS.

HIGAWAY ROBBERY.—On Monday morning last about 9 o'clock, while Mr. Louis Ready was on his way between Ford's Bar and Cold Springs and near the latter place, he was stopped by two Chinamen who presented each a revolver and thus addressed him: "Melican man got money; me catchee 'em. No hab got 'em, me shoot 'em." Ready, thinking it better to deliver than be shot, handed the barbarians a purse containing two dollars which they took and handed the purse back, suffering him to depart. Ready says he was in a similar condition with the minister who loaned his hat for the purpose of passing around for contributions, he was greatly pleased at the return of the purse. He had quite a number of twenties concealed on his person and was tickled that the Johns allowed him to depart so easily.

STAMP YOUR RECEIPTS.—The following letter from the Commissioner of Internal Revenue, announcing answers to interrogories relative to persons placing stamps on receipts, where the amount require such stamps, will be of interest to all:

TREASURY DEPARTMENT,
OFFICE OF INTERNAL REVENUE,
WASHINGTON, Dec. 28, 1866.

A. B. Slanaker, Esq., Collector of Internal Revenue, First District Pennsylvania, Philadelphia, Pa: SIR,—In answer to your letter of December 20th, asking who is required to stamp a receipt, I have to say that any person who issues an unstamped receipt, with the intent to evade the provisions of the law, becomes liable to the penalty of fifty dollars in the law provided: and that the receipt so issued shall be deemed invalid and of no effect.

In relation to the other question asked by you, I would state that it is not believed to be incumbent upon this office to decide who shall pay for the stamp to be placed upon a receipt.

Very respectfully,
E. A. ROLLINS, Commissioner.

ROBBERIES.—Sonora, Tuolumne county, appears to be just now liberally supplied with thieves; Grass Valley must have taken a vomit of this description. The Sonora *Herald* of the 26th says: Robberies in this section are becoming alarmingly prevalent. Clothes thieves and burglars are committing their depredations in all parts of the county. On Tuesday night last, the store of Mr. J. G. Madyson, of this place, was entered and robbed of forty or fifty dollars worth of tobacco and one dollar and sixty cents, which was left in the till. The robbers effected an entrance by first entering the old Major Ball building adjoining and then removing sufficient stones to admit their bodies. It is becoming quite "dangerous to be safe" in these parts, and unless the perpetrators are soon apprehended we may have to chronicle heavier losses.

AID TO MR. GRIDLEY.—The Reese River *Reveille* says that a meeting was held in Austin (Nev.) on the 16th instant, for the purpose of extending to Mr. Gridley, formerly of that place but now a resident of this city. Major E. A. Sherman addressed the assembly. Tickets were sold to the amount of $500. Colonel Euel also spoke; likewise Rev. Mr. Trefern. The exployes of the Great Eastern mine contributed $150; the same amount was brought in by the "Skirmishing Committee," and the collection in the church amounted to the sum of $170. Colonel Bruce spoke of Mr. Gridley as an upright, warm-hearted man, and said: "We must help Gridley and make him well, and then we will build him a little house and bring him here to live with us."

PAINS in the bones, and all diseases arising from an impure state of the blood such as Pimples, Boils, Salt Rheam, Scrofula, Neuralgia, &c., are radically cured by the use of Hall's Sarsaparilla Yellow Dock and Iodide of Potass.

SEMI-WEEKLY ENQUIRER.

Rev. Mr. Damon will preach at the Union Church next Sunday at the usual hours. Subjects:—Morning, "the Pharisee and Publican." Evening, "The Vanity of Vanities."

MITE SOCIETY.—This institution will hold its next regular meeting on Tuesday evening next, February 5th at the theatre, quite a number were present at the last meeting of the society, and enjoyed the hop after the regular business was concluded, to the fullest extent. Much interest is manifested for the prosperity and success of this organization, and we hope all who can, will be there on the occasion of the next meeting. The young ladies deserve credit for the manner in which they conduct it, and will doubtless realize a handsome sum for the church by the approach of Spring.

CHICKEN THIEVES.—The chinese of this place are great epicures, as is shown by the frequent and successful raids made upon almost every henery in the place. During the early part of the week Mr. Wilkie's place was visited and every hen and chicken on the premises was taken, and Thursday night last the residence of Mr. Hoover received a call from parties having a similar penchant for fowls and *his* hen-house dispoiled of every chicken in it. This nuisance is becoming serious and calls for action. Cannot something be done to allay the hand of the destroyer? Is there not sufficient Yankee ingenuity to contrive some plan by which these thieves can be taught to desist from this despicable practices? The promulgation of the gospel won't do it, *that's* sure; let some one who has chickens set a trap by which they would be blown to—heaven where their ideas of honesty and right would be improved.

LOOK OUT FOR COUNTERFEITS.—A writer in the Alta *California* gives the following description of the counterfeit half dollar that has recently been put in circulation in San Francisco. It will be seen that the description is so minute as to enable all to detect the bogus from the pure at a glance. Persons in the retail business would do well to paste this up for ready reference:

"The coin purported to be an American half dollar of the date of 1860, and to have been coined at San Francisco. At first glance the imitation is good, and quite likely to deceive; but a close examination will show it to be very defective. The piece had evidently not been long in circulation, as it was not perceptibly worn. Compared with a genuine coin, it was found to be thicker, yet the diameter was exactly the same. It had a tin look, and somewhat greasy feel. The angle at which the shield rested against the figure was four degrees greater than on the genuine. The rod which supports the cap of Liberty was slightly longer. On the reverse side the letters have a clumsy look. The letters "S T" in "States," appear as if the die had been injured, or as if they had been bruised after the coin was struck. The surface of the shield was flush, or nearly so, while on the genuine the part marked by the stripes is depressed. A close examination with a good lens will show all the letters to be defective and imperfect, as compared with the genuine. The weight of the coin was 12.7851 grammes, while the mean weight of several genuine halves of 1860 was 12.125 grammes. The difference was 6601 grammes, or 10.186 grains. The test of weight alone is sufficiently marked to render the detection of the counterfeit easy. By analysis the coin was found to be an alloy of nickel and copper in the following proportion:

Nickel	69.34
Copper	30.66

The alloy was hard and difficult to fuse, but tough and malleable. Besides being a dangerous counterfeit, its circulation is likely to be a source of annoyance to manufacturing jewellers, and those artisans who require silver and gold of a certain fineness, and who use coin for that purpose. The presence of nickel in such alloys would be anything but desirable."

THE SUPREME COURT OF THE UNITED STATES.—The following is a list of the Justices of the United States Supreme Court, with the dates of their appointments and the names of the Presidents by whom they were conferred:

"James M. Wayne, of Georgia, appointed in 1835, by Andrew Jackson; Samuel Nelson, of New York, appointed in 1845, by John Tyler; Robert C. Grier, of Pennsylvania, appointed in 1846, by James K. Polk; Nathan Clifford, of Maine, appointed in 1858, by James Buchanan; Noah Swayne, of Ohio, appointed in 1862, by Abraham Lincoln; Samuel H. Miller, of Iowa, appointed in 1862, by Abraham Lincoln; David Davis of Illinois, appointed in 1862, by Abraham Lincoln; Stephen J. Field of California, appointed in 1863, by Abraham Lincoln; Salmon P. Chase, Chief Justice, appointed in 1864, by Abraham Lincoln.

SHOOTING AFFAIR AT THE MONTE.—An old feud which existed between a man named Joseph Clark and his nephew, named Richard Bennett, culminated last Monday evening in a deadly affray at the Monte. Bennett was armed with a six-shooter and Clark with a shotgun. They met in the street Bennett commenced firing first; then Clark fired his shotgun and mortally wounding his antagonist. Bennett survived only about fifteen or twenty minutes. An examination of the case resulted in the acquittal of Mr. Clark.—*Wilmington Journal.*

INFORMATION WANTED.—Mrs. Jane Squires desires to know the whereabouts of her son, Andrew Jackson. The last heard of him was about the 1st of October, 1866; he left Marysville for Sacramento on a visit to his grand-parents. After visiting them he left for San Francisco ostensibly to find work. He is a blacksmith by trade. If the newspapers will notice the above, they will confer a great favor on an afflicted mother.

THE expenitures of the State Agricultural Society during the past year, as shown by the report of the Secretary, were $19,639-96; whole amount of receipts during the same time, $20,361 85, leaving a balance on hand of $721 89. Old indebtedness compromised since the preceding report, $3,-693 44, leaving still an indebtedness of $3,-851 30.

Within one year over six hundred and forty thousand persons have taken the Plantation Bitters, and not an instance of complaint has come to our knowledge!

It is a most effectual tonic and agreeable stimulant, suited to all conditions of life.

The report that it relies upon mineral substances for its active properties are wholly false.

The original quality and high standing of these goods will be sustained under every and all circumstances. They have already obtained a sale in every town, village, parish and hamlet among civilized nations. Base imitators try to come as near our name and style as they can, and because a poor article cannot be sold as low as a good one, they find some support from parties who do not care what they sell. REDINGTON & CO.'S
ESSENCE OF JAMAICA GINGER.

THIS valuable preparation, containing in a highly concentrated form all the properties of the Jamaica Ginger, has become one of the most popular domestic remedies for all diseases of the stomach and digestive organs.

As a tonic it will be found invaluable to all persons recovering from debility whether produced by fever or otherwise, for whilst it imparts to the system all the glow and vigor that can be produced by wine or brandy, it is entirely free from the reactionary effects that follow the use of spirits of any kind.

It is also an excellent remedy for females who suffer from difficult menstruation, giving almost immediate relief to the spasms that so frequently accompany that period.

It gives immediate relief to Nausea, caused by the riding in a railroad car, or by sea-sickness, or other causes. It is also valuable as an external application for Gout, Rheumatism, Neuralgia, etc.

HOPE FOR THE AFFLICTED.—In another part of this paper will be found the advertisement of the celebrated Institute established by Dr. J. C. YOUNG, in 1850. In this age of deceit and charlatanism, it is a boon to the suffering to point out to them where they are sure of obtaining the wished for relief and cure. Under the care of the skillful Doctor the sick and troubled can divest themselves of their burdens of pain; lay aside their cross, and secure health and happiness. If you are sick or in trouble, do not hesitate. Read the advertisement and follow the advice. Do not forget the number or the manner of directing your letters. MEDICAL ADVICE.—DR. WM. K. DOHERTY'S Medical and Surgical Institute is becoming a sine qua non to the welfare of our State and health of our citizens; and his rapidly spreading reputation, although it may excite surprise, is but the signal of skill, and follows as the natural result of such a cause. We are personally acquainted with gentlemen who had suffered for years under chronic disease, and who had taken advantage of every available means that promised relief, but without success, until they [illegible] upon Dr. Doherty, who, in an incredibly short [illegible] of time, has given them entire relief. It is gratifying to announce this fact, because the Dr. is a gentleman who seeks, not by defamation of others to establish his reputation or ruin of another's fame. The Doctor conducts his own Institute in such a manner must be gratifying to all his patients. He examines, advises, and recommends without charge, and the patient, after hearing his terms for treatment, can accept or reject at pleasure. In no case does the Doctor make a charge unless he effects a cure. This he is able to do, because he feels the confidence which long experience has given, and no doubt the consolation which appertain to that confidence. Persons afflicted with either acute or chronic disease, would do well to consult the Doctor; at all events, it can do no harm, as for consultation he asks no fee; nor does he insist on obedience to his advice unless the patient places himself under his care. His offices are on Sacramento street, opposite the Pacific Mail Steamship office.—NEWS

A NEW AND GRAND EPOCH IN MEDICINE.—Dr. Maggiel is the founder of a new Medical System! The quantitarians, whose vast internal doses enfeeble the stomach and paralyze the bowels, must give precedence to the man who restores health and appetite, with from one to two of his extraordinary Pills, and cures the most virulent sores with a box or so of his wonderful and all-healing Salve. These two great specifics of the Doctor are fast superseding all the stereotyped nostrums of the day. Extraordinary cures by Maggiel's Pills and Salve have opened the eyes of the public to the inefficiency of the (so called) remedies of others, and upon which people have so long blindly depended. Maggiel's Pills are not of the class that are swallowed by the dozen, and of which every box full taken creates an absolute necessity for another. One or two of Maggiel's Pills suffices to place the bowels in perfect order, tone the stomach, create an appetite, and render the spirits light and buoyant! There is no griping, and no reaction in the form of constipation. If the liver is affected, its functions are restored; and if the nervous system is feeble, it is invigorated. This last quality makes the medicines very desirable for the wants of delicate females. All Ulcerous and eruptive diseases are literally extinguished by the disenfectant power of Maggiel's Salve. In fact, it is here announced that MAGGIEL'S BILIOUS, DYSPEPTIC AND DIARRHEA PILLS cure where all others fail. Which for Burns, Scalds, Childblains, Cuts and all abrasions of the skin MAGGIEL'S SALVE is infallible. Sold by J. MAGGIEL, 11 Pine street, New York, R. H. McDonald & Co., San Francisco, and all Druggists, at 25 cts. per box.

MEDICAL.

FRENCH MEDICAL OFFICE.

DR. JULIEN PERRAULT, Doctor of Medicine of the Faculty of Paris, Graduate of the University Queen's College, and Physician of the St. John Baptiste Society of San Francisco.

DR. PERRAULT has pleasure to inform patients, and others seeking confidential medical advice, that he can be consulted daily at his office, Armory Hall Building, North-East corner Montgomery and Sacramento streets, San Francisco. Rooms 8, 9, 10, 11, first floor, up stairs entrance either on Montgomery or Sacramento streets.

DR. PERRAULT'S studies have been almost exclusively devoted to the cure of the various forms of Nervous and Physical Debility, the results of injurious habits acquired in youth, which usually terminate in impotence and sterility, and permanently induce all the concomitants of old age. Where a secret infirmity exists involving the happiness of a life and that of others, reason and morality dictate the necessity of its removal, for it is a fact that premature decline of the vigor of manhood, matrimonial unhappiness, compulsory single life, etc., have their sources in causes, the germ of which is planted in early life, and the bitter fruit tasted long afterward; patients, laboring under this complaint, will complain of one or more of the following symptons: Nocturnal Emissions, Pains in the Back and Head, Weakness of Memory and Sight, Discharge from the Uretha on going to stool or making water, the Intellectual Faculties are Weakened, Loss of Memory ensues, Ideas are clouded and there is a disinclination to attend to business, or even to reading, writing or the society of friends, etc. The patient will probably complain of Dizziness, Vertigo, and that Sight and Hearing are Weakened and sleep disturbed by dreams, melancholy, sighing, palpitations, faintings, coughs and slow fever; while some have external rheumatic pain, and numbness of the body. Some of the most common symptons are pimples in the face and ashing in different parts of the body. Patients suffering from this disease, should apply immediately to DR. PERRAULT, either in person or by letter as he will guarantee a cure of Seminal Emissions and Impotence in six to eight weeks.

Patients suffering from venereal diseases in any stage Gonorrhea, Gleet, Strictures, Bubo Ulcers, Cutaneous Eruptions, etc., will be treated success fully. All Syphilitic and Mercurial Taints entirely removed from the system.

DR. PERRAULT'S diplomas are in his office, where patients can see for themselves that they are under the care of a regularly educated practitioner. The best references given if required.

Patients suffering under chronic diseases, can call and examine for themselves. We invite investigation; claim not to know everything, nor to cure everybody, but we do claim that in all cases taken under treatment, we fulfil our promises. We particularly request those who have tried this boasted doctor, and that advertised physician, till worn out and discouraged, to call upon us.

Low charges and quick cures.

Ladies suffering from any complaint incidental to their sex, can consult the doctor, with the assurance of relief.

Female Monthly Pills.

DR. PERRAULT is the only agent in California for DR. BIOT'S Female Monthly Pills. Their immense sale has established their reputation as a female remedy, unapproached, and far in advance of every other remedy for suppressions and irregularities, and other obstructions in females. On the receipt of five dollars, these Pills will be sent by mail or express to any part of the world, secure from curiosity or damage.

Persons at a distance can be cured at home, by addressing a letter to DR. PERRAULT, corner of Sacramento and Montgomery streets, Rooms, 10 and 11, or Box 973, P. O., San Francisco, stating the case as minutely as possible, general habits of living, occupation, etc., etc.

All communications confidential. je 23-1y

MEDICAL.

DR. CHAS. H. TOZER'S

PRIVATE MEDICAL INSTITUTE,
N. E. Corner of Kearny and Jackson Streets,
SAN FRANCISCO.

The Great Eradicator of Special complaints, formerly of Locke Hospital, London, Eight Years in Sacramento, and the last Four Years in San Francisco.

DR. TOZER'S

Experience is of forty year's standing, and during that time he has met with unparalleled success in the treatment of all those diseases generally known as Venereal or Chronic.

It is impossible here to mention all the diseases with which he is familiar; some, perhaps, will not be out of place. The most formidable, the most destructive to mankind is Self-Abuse. The brain being the seat of the disease, the whole system suffers in consequence. I will here enumerate some of the symptoms, so that those afflicted may be able to form an opinion in regard to their complaints and seek advice in time, thereby saving themselves a world of suffering: Nervous Debility, Loss of Memory, Pain in the Limbs and Back, Palpitation of the Heart, Trembling of the limbs, Headache and an aversion to general society, especially that of females. There are a great many more, but these are sufficient, and should you be suffering from any of them, call on Dr TOZER, and he will cure you in a short time, without any interruption to your business—or state your case by letter, and there will be no occasion for your calling at the office.

Stricture of the Urethra

Is another formidable enemy to health. Send for one of my circulars on that disease, and inform yourself of its terrible results. The worst cases cured in a few days.

Venereal Diseases,

In all their various forms, either Primary, Secondary or Hereditary, completely eradicated from the system. Your constitution being restored to perfect health, there will be no danger of handing down to your children that terrible disease known as Scrofula

Syphilitic Disease,

As it presents itself on this coast, is of a more formidable character than that seen in the Atlantic States or Europe, arising from the fact of its being a compound of Spanish, Chinese and Sandwich Island disease. Those of you who have visited the two countries no doubt have seen the dreadful effects of it on the native and foreign population. It requires altogether different modes of treatment.

The Old Formulas

Of Ricord, Acton and Bostwick, are of little account, except to dry up the disease on the surface, leaving the poison in the blood, which, sooner or later, will show itself as a secondary disease in an aggravated form. These facts I have learned by experience, and think I can say without boasting, that I have seen more practice in these diseases than any other physician in San Francisco, dating, as it does, from 1849. It becomes you, therefore, to think well before you employ a physician. Who is the proper one to consult? An old experienced one, or one who has recently settled among you?

My plan is purely vegetable, destroying the disease and purifying the blood so that there is no danger of secondary symptoms.

Rheumatism, Neuralgia,

And diseases arising from the use of Mercury, such as pains in the skin bones, swellings of the different joints of the body, running sores, etc., and impurities of the blood, cured in a short time by the use of my VEGETABLE MIXTURES, known only to myself.

Seminal Weakness.

Should you be afflicted with any of the following symptoms, such as weakness of the Back and Limbs Pain in the Head, Dimness of Vision, Nervousness and General Debility, Loss of Memory, Confusion of Ideas, and Depression of Spirits, Evil Forboding, Self-distrust, and an aversion to society, consult DR. TOZER at once, and he will restore you to perfect health.

To Females,

When you are afflicted with Weakness of the Back and Limbs, Head, Loss of Muscular Power, Palpitation of the Heart, Irritability, Nervousness, Extreme Urinary Difficulties, Derangement of the Monthly Sickness, Sterility, and other diseases peculiar to females, consult DR. TOZER, and you will receive particular attention. Let no false delicacy prevent you, but apply at once, and save yourself from painful suffering and premature death.

My rooms are so arranged that there is no danger of exposure, and of meeting any one save the Doctor

My FEMALE MONTHLY PILLS were never known to fail in giving relief in those cases for which they are recommended. To be obtained only at my office.

Price, FIVE DOLLARS—with full directions on each Box. Sent by Mail or Express.

To Correspondents.

Patients of either sex, residing in any part of the country, however distant, who may desire the opinion and advice of DR. TOZER, can, by submitting a written statement of their case to the Doctor, receive all the attention and medicines necessary to affect a cure without the necessity of a personal interview.

All letters strictly confidential, opened and replied to by the Doctor himself.

Consultation at the office or by letter, FREE.

Cures in all cases guaranteed.

A Grateful Acknowledgement to Skillful Gentlemen.

SAN FRANCISCO, June 1, 1866.

Dr. Chas. H. Tozer:—Dear Sir: You will excuse me for not writing to you sooner. You will please remember me as the individual who called on you for assistance about a year ago. The roof of my mouth had completely rotted out, and my palate dropped and there remained, stopping up the passage so that I could hardly eat. You remember you cut it out at once, which relieved me immediately, and I was enabled to swallow my food, and in a short time began to improve. I took your medicine, and followed your directions for several months. You finally succeeded in stopping the disease, saving my nose and upper lip, though you frequently cautioned me about losing it. I continued to improve until you finally recommended me to go into the country, and before going, by your advice, I had a cast taken of my mouth, in order that I could have a plate made for me to enable me to speak so as to be understood, and am now using it. My eternal thanks are due to you for the perseverance and skill that you displayed in my case; and I have to thank you for my restored health, and even my life, as I was very near bleeding to death several times from the nose. I am now in Sacramento City, enjoying good health, and I shall recommend all my friends to call on you should they be so unfortunate as to require assistance; and I would advise all persons to avoid certain scientific doctors in your city, for they will send them to a land from whence no traveler returns.

With my best wishes for the success of both of you, I remain, yours, etc., S. S. T.

QUICK CURES, AND MODERATE CHARGES.

DR. W. K. DOHERTY'S
Private Medical and Surgical Institute

Sacramento Street, below Montgomery, opposite the Pacific Mail Steamship Company's Office. Private entrance on Leidesdorff street, San Francisco.

Established expressly to afford the afflicted sound and scientific medical aid in the treatment and cure of all Private and Chronic Diseases, cases of Secrecy and all Sexual Disorders.

TO THE AFFLICTED.

DR. W. K. DOHERTY returns his sincere thanks to his numerous patients for their patronage, and would take this opportunity to remind them that he continues to consult at his Institute for the cure of chronic diseases of the Lungs, Liver, Kidneys, Digestive and Genito-Urinary Organs, and all private diseases, viz: Syphilis in all its forms and stages, Seminal Weakness, and all the horrid consequences of self-abuse, Gonorrhœa, Gleet, Strictures, Nocturnal and Diurnal emissions, Sexual Disability, Diseases of the Back and Loins, Inflammation of the Bladder and Kidneys, etc., etc., and he hopes that his long experience and successful practice will continue to ensure him a share of public patronage. By the practice of many years in Europe and the United States, he is enabled to apply the most efficient and successful remedies against diseases of all kinds. He uses no mercury, charges moderate, treats his patients in a correct and honorable way, and has references from men of known respectability and high standing in society. All parties consulting him by letter or otherwise, will receive the best and gentlest treatment, and implicit secrecy.

DR. DOHERTY would call attention to the following certificates from two of his patients, who, having fully recovered their health, desire to make known their remedial agent. It will be seen their statements are fully authenticated by a Notary Public.

The welfare of society imperiously demand their publicity and they are given more to warn the unwary than to sound the praise of a Physician, of whom hundreds of like cases can be cited during a practice of more than fifteen years.

DR. DOHERTY—Dear Sir: I feel my health so fully restored, that in common gratitude, I believe I should make you some written acknowledgement for your valuable services—particularly as your fee was small for the work performed.

I arrived in this city from the East about one year ago, and was then suffering from an old case of Gleet, complicated with Stricture. Being a stranger in this city, and believing those Doctors who gave such positive assurances of success were necessarily the best, (some of whom have a large number of titles,) I placed myself in their charge and continued under their treatment until I had lost nearly all hope and a considerable sum of money.

I wish to say now that you are the sixth Doctor I have employed, and the only one that has ever done me any service. My Gleet is wholly cured, the Stricture is all removed, and my general health is better than it has been for years.

In conclusion, I would say to the many unfortunates who require medical advice, if you have any doubt as to whom you may employ, ask Dr. Doherty for my address and call and see me. (I keep store in this city.) My experience may save you many dollars.

I would also add that in the early stage of my disease I used a large amount of the preparations advertised as an infallible cure for Gonorrhœ, Gleet, etc., but never derived any benefit from them.

I am, Doctor, very truly yours,
—— H——.

Seminal Weakness—A Sworn-to Certificate of a most Remarkable Cure of Spermatorrhœa.

A desire to benefit humanity, and a feeling of gratitude to Dr. W. K. Doherty, alone induces me to make this statement. For many years I have been afflicted with that fearful disease known as "Spermatorrhœa," or Seminal Weakness, the result of self-abuse, but till 1855 experienced but little trouble or inconvenience. In that year however, I had Seminal Weakness to an alarming extent, which was soon followed by the most alarming symptons as weakness of the back and limbs, pain in the head, dimness of vision, nervousness and general debility. My mind, too, was afflicted to such an extent as to seriously impair my memory; my ideas were confused and spirits depressed. I was averse to society, had evil forebodings and self-distrust, and was entirely unfitted for any of the duties of life. From 1855 to the summer of 1863, I employed the very best medical talent I could find, and spent several hundred dollars, but in no instance obtained more than temporary relief. I had about concluded there was no relief for me in this world, but seeing Dr. Doherty's advertisement, I thought I would call and see him, as he charged nothing for consultation. I had an interview with Dr. Doherty at his office, in Sacramento street, and his fee for treatment was so reasonable, I determined to try him, though I did not expect much benefit from his treatment. On the 5th of December last I placed myself under his care; in one week I found myself very much improved, and, now after five weeks' treatment, I feel myself thoroughly cured of all my troubles and in the enjoyment of the best health. Hoping that my experience may be of benefit to others similarly afflicted, I subscribe myself JAMES JOHNSTON.

Subscribed and sworn to before me, this 15th day of January, A. D. 1864.
[L. S.] A. G. RANDALL, Notary Public.

K. Doherty, at his Medical Institute, and consult him about their troubles and disease. The Doctor is effecting more cures than any other physician in the State of California. Let no false delicacy prevent you, but apply immediately and save yourself from painful sufferings and premature death. Doherty's Medical Institute, and they will receive every possible relief and help. The Doctor's offices are so arranged that he can be consulted without fear of observation.

To Correspondents.

Patients residing in any part of the State, however distant, who may desire the opinion and advice of Dr. Doherty on their respective cases, and who think proper to submit a written statement of such, in preference to holding a personal interview, are respectfully assured that their communications will be held most sacred, Dr. Doherty takes this opportunity of observing, that all letters are only opened and replied to by himself, and the latter as promptly as possible.

If the case be fully and candidly described, personal communication will be superseded, as instructions for diet, regimen, and the general treatment of the case (including the remedies), will be forwarded without delay, and in such a manner as to convey no purport of the letter or parcel so transmitted. ☞ Consultation at the office FREE. THIS CELEBRATED INSTITUTE

has enjoyed on this coast an uninterrupted success of fourteen years, and has become one of the renowned Hospitals of the age. What the celebrated Lock Hospital is to London, and the no less renowned establishment of Ricord is to Paris, this Institute has become to the Pacific coast. The thousands annually received and cured place it in point of number of patients among the very first of the world, and the success of its treatment ranks it second to none.

PRIVATE DISEASES IN MALES and IRREGULARITIES IN FEMALES are the great destroyers of health. They insidiously attack the system and gradually undermine and destroy it; they drive the bloom from the cheek, the lustre from the eye, the strength from the frame; they give to the world puny and diseased offspring, and poison, through successive generations the race of man. The marks can be seen in Scrofula, Consumption, Cripples, the Idiotic, the Paralytic, the Insane, etc.

There is no more terrible scourge to the human race than those diseases arising from the contamination of Venerial Poison. The mildest forms, by retreating to the blood, hold over the afflicted one, the destruction that is liable at any moment to fall and blight—to utterly destroy—all earthly hopes.

MERCURY, recognized as the most fatal medical enemy to man, combining with the Venereal, doubles its dangers. Those who have been treated with that pernicious mineral poison are not cured; the disease has only assumed a new form.

Do not be satisfied with partial cures

that leave the poison to crawl through the system, eating its way into the tissues and organs beneath the apparently smooth surface, to burst out in the future with a virulence that will baffle the effects of medicine. WHEN PERFECT CURES can be obtained by consulting a physician whom long practice and thorough investigation into the causes of DISEASES of the URINARY ORGANS enables to determine at once the nature of the disease.

In all cases entrusted to the Doctor's care, PERFECT, SPEEDY and PERMANENT,

Cures are Always Guaranteed.

In syphilis and its adjuncts; Gonnorrhœa and its accompanying diseases; and all diseases of the Bladder, Kidneys, and prostrate; Seminal Weakness Diseases of the Heart and Lungs; Dyspepsia; Indigestion, Impotency; Incipient consumption, and all diseases of the urinary organs, in either sex, cure always warranted, NO PAY REQUIRED, at the

Seminal Weakness or Spermatorrhœa

The young man who experiences that growing weakness in his muscular and mental organization should stop to consider whence it arises. He will find in the weakness of the back, trembling of the limbs, disordered digestion unaccountable failing of the powers of the mind, distaste for society, dread of impending trouble, forebodings of evil, sleeplessness, troubled and lascivious dreams, accompanied by growing deafness, loss of muscular power, and numerous other symptons of disorganization, the positive traces of that most terrible and destructive of all diseases Seminal Weakness—wasting away his powers, destroying his hope of life and manhood, and dragging him along the broken path of his existence towards a premature and loathsome grave. To him who finds his life dribbling out in the discharge of the vital principle of existence in nocturnal and diurnal emissions, the mere cessation of its appearance brings no assurance of relief.

Marriage, that holy office, the safeguard and hope of manhood, brings to such an one no hope of cure, but adds to his misery in the knowledge that the one, who looks to him for so much of her happiness, is a victim to his evil, and an innocent companion of his punishment. He adds to his misery and disorder until hope leaves him. There is no rescue except in proper and skillful treatment. Consult then, at once, a physician whom long practice and careful research has made thoroughly conversant with every phase of the disease. Those who have become the victims of solitary vices, that dreadful, fascinating and destructive habit, which fills thousands o sick-rooms with paralytics and consumptives, and hundreds of untimely graves with its misguided victims, should consult, without a moment's delay, one who will sympathize with their sufferings. To such the Doctor would especially address himself, giving to each and all assurance of a PERFECT and PERMANENT CURE, without hindrance to business, change of diet, or fear of exposure.

Do not forget the address. See below.

Important to Females.

When a female is in trouble or afflicted with disease and requires medical or surgical assistance, the enquiry should be, Where is there a physician who is fully competent to administer relief, and whose respectable standing in society recommends him to the confidence of the community? The Doctor understanding how imperatively necessary these requirements are, feels called upon to interpose, and beg the attention of the afflicted to the fact that he has been a Professor of Obstetrics and Female Diseases for twenty years, and is fully qualified to administer in all cases, both medically and surgically, not in a superficial manner, but in as thorough a manner as years of study and practice—both in hospitals and private families—can make, to save them from the hands of the unqualified, unscrupulous and designing. Therefore families can rely upon him as upon a father. All in affliction can find in him one who will feel and sympathize with and befriend them in trouble—one in whose secrecy the utmost confidence can be placed. Consultation by letter or otherwise, FREE. See address below.

THE CELEBRATED FEMALE REMEDIES, compounded from the private prescription of Dr. Young, have now obtained a most extended popularity, and are correctly viewed to be the safest and surest remedies for the complaints for which they are applied. The constantly accruing testimonials of their efficacy declare them to be pre-eminently superior in their action. No lady should be without these Renovating Agents. None genuine unless procured at this office.
